

During the last 4 years, carried by the IASCYS and the IRDO, under the leadership of Matjaz Mulej, first President of the Academy, the theme "Social Responsibility", was developed during the annual congresses of the IRDO at Maribor (Slovenia) and workshops of the Academy during the congresses of EUS-UES in 2011 in Brussels (Belgium) and of the EMCSR in 2014 in Vienna (Austria). It gave rise to the publishing by Bentham (USA) of a **3 books series edited by Matjaz Mulej and Bob Dyck**.

The last workshop of the Academy at Valencia (Spain) during the October 2014 joint congress of UES-EUS and WOSC on the theme "**Globalization and Crisis. Systems Complexity and governance**" was centred on Artificial Intelligence (José Hernández-Orallo), and systemics applied models as helpful tools for the struggle against poverty (Antonio Caselles) and the economic violence (Pierre Bricage).

Globalization and self-organization
in the construction of our worlds
